

Visitor Management

Savance Visitor Management streamlines the visitor process for any organization. Visitors can quickly sign in, either with the help of a receptionist or at an easy-to-use, self-service touch screen kiosk. A host of different add-ons make data capture simple and efficient to ensure no bottlenecks at sign in.

FEATURES & BENEFITS

- Electronically manage visitors
- Custom-branded screens and hardware
- Configurable sign in process
- Automatically notify host by text, email, or popup when a visitor has arrived
- Options for ID scanning, temperature check, picture capture, label printing, and more.
- Preregistration, touchless option, door control, and access control integration
